SUMMARY

Full-Stack Web Developer with hands-on experience building scalable web and mobile applications using TypeScript, NestJS, React, and React Native.

Proven ability to develop RESTful APIs, optimize system performance, and deliver user-focused solutions in agile environments.

Skilled in both frontend and backend development with a strong focus on clean architecture, maintainability, and real-world problem solving.

CORE SKILLS

- Full-Stack Development
- REST API Development
- Frontend Development (React, Next.js, TailwindCSS)
- Backend Development (Node.js, NestJS, Laravel)
- State Management (Redux)
- Database Design (MySQL, PostgreSQL)
- Mobile Development (React Native)
- Agile Development & Scrum

EXPERIENCE

Junior Software Developer

Molave Youngs Milling Corp.
June 2025 – November 2025

- Developed and maintained scalable full-stack applications using TypeScript, NestJS, Next.js, and React, improving system performance and maintainability
- Designed and integrated RESTful APIs with Swagger, enhancing API documentation and team collaboration
- Contributed to a React Native mobile application, improving accessibility and user engagement
- Implemented Redux state management, reducing UI inconsistencies and improving application responsiveness
- Collaborated in Agile sprints using Jira, ensuring timely delivery of features and bug fixes

---

Front-End Developer (Part-time)

Camp Connection
February 2025 – August 2025

- Developed responsive web applications using React and TailwindCSS, improving user experience across multiple devices
- Integrated REST APIs to deliver dynamic and real-time content
- Collaborated with designers and backend developers to build scalable and maintainable features
- Resolved production issues, improving application stability and reducing downtime
- Participated in agile workflows, including sprint planning and task management

---

Programmer

Kooapps Philippines Corporation
November 2025 – February 2026

- Developed iOS card games using Objective-C, implementing game logic, scoring systems, and interactive UI components
- Built a card-matching game with rule validation and algorithm-based logic
- Applied MVC architecture to separate application layers and improve maintainability
- Implemented event handling and dynamic UI updates for smooth gameplay experience
- Strengthened knowledge in object-oriented programming, algorithms, and performance optimization

---

TECHNICAL SKILLS

Programming Languages

JavaScript, TypeScript, PHP, C++, Objective-C

Frameworks & Libraries

React.js, Next.js, React Native, NestJS, Node.js, Laravel, TailwindCSS, Bootstrap, Redux

Databases

MySQL, PostgreSQL

Tools & Platforms

Git, GitHub, Visual Studio Code, MySQL Workbench, XAMPP, Xcode

---

EDUCATION

Bachelor of Science in Computer Science
Western Mindanao State University
2020 – 2025

ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Effective communication and teamwork in agile environments
- Passionate about continuous learning and modern technologies
