Nicko Balboa

Pagadian, Philippines 7016

+63 962 492 2544 **nickojek2x@gmail.com**

Motivated Web Developer with experience in building and maintaining modern web applications. Skilled in both front-end and back-end development, with a focus on creating scalable, reliable, and user-friendly solutions. Strong problem-solving abilities, effective communication skills, and a collaborative mindset. Dedicated to continuous learning and staying updated with emerging technologies to deliver quality results in dynamic environments.

Experiences

February, 2025 – August 2025
Camp Connection – Front-End Developer

- Developed and maintained modern, responsive web applications using React, TailwindCSS, and JavaScript.
- Wrote scalable, reusable, and well-documented code, ensuring maintainability and collaboration.
- Integrated REST APIs to enhance application interactivity and real-time content delivery.
- Collaborated with designers and back-end developers to define requirements and implement robust features.
- Participated in agile development cycles**,** sprint planning, and task management.
- Resolved technical issues in production environments**,** ensuring reliability and smooth user experiences.

Projects

5th Avenue Grill and Restobar - November, 2024

- Implemented an attractive, well-organized digital menu that allows customers to easily browse detailed descriptions and images of each dish.
- Developed a user-friendly ordering system that enables effortless item selection, customization, and seamless cart management.
- Integrated payment to ensure that all online transactions are secure and reliable.
- Implemented that provides customers with updates on their order status from confirmation to serving.
- Built the platform using Laravel and modern web technologies to ensure it adapts seamlessly across devices and scales efficiently as the user base grows

Mango Drive - October, 2024

- Implemented an intuitive interface that allows customers to quickly browse a dynamic menu, select items, and place orders with minimal hassle.
- Integrated PayPal for secure and convenient payment processing, ensuring that customer transactions are handled safely.
- Developed a system that keeps users informed with updates from order placement to confirmation.
- Built Mango Drive on Laravel, ensuring a smooth and responsive experience on desktops, tablets, and smartphones.
- Enabled flexible order customization, allowing customers to tailor their selections to meet their personal tastes and dietary requirements.

Pagadian Careers - August, 2024

- Implemented an advanced search and filtering system that enables job seekers to browse through a comprehensive collection of job postings based on category, location, and job type.
- Developed a dedicated dashboard for employers, allowing them to create, update, and manage job postings efficiently.
- Implemented a seamless application workflow that enables candidates to easily apply for positions, upload resumes, and track their application status.
- Built detailed profile management features that allow both job seekers and employers to showcase skills, experiences, and company culture effectively.
- Ensured the platform was developed with robust security practices and scalable architecture to protect data and accommodate growth in user activity and job listings.

Water Billing - April, 2024

- Implemented automated billing functionality that calculates water consumption and generates bills, significantly reducing manual errors.
- Developed features to continuously monitor water usage, providing data to both administrators and customers for improved accountability.
- Integrated robust payment processing capabilities to ensure safe and efficient handling of all transactions.
- Created an intuitive dashboard that allows administrators to easily manage customer accounts and billing history, while customers can conveniently access their usage and payment records.
- Engineered the system using Laravel, ensuring that it scales efficiently to meet growing demand while maintaining consistent performance and reliability.

Technical Skills

Languages: JavaScript, PHP, TypeScript, Golang
Frameworks & Libraries: Laravel, React.js, Inertia.js, Livewire, TailwindCSS, Bootstrap
Databases: MySQL
Tools: Git/GitHub, Visual Studio Code, MySQL Workbench, XAMPP
Other: HTML5, CSS3, Node.js, Agile Development, Technical Documentation

Educations

2020 - 2025

Bachelor of Science in Computer Science

Western Mindanao State University

Bulatok, Pagadian City

2019 - 2020 (with honors), Secondary

Technical Vocational & Livelihood (TVL) Track - Computer System Servicing (CSS)

Sta. Lucia National High School

Sta. Lucia, Pagadian City

2013 - 2014, Elementary

Sta. Lucia Central Elementary School

Sta. Lucia, Pagadian City
