Motivated Web Developer with experience in building and maintaining modern web applications. Skilled in both front-end and back-end development, with a focus on creating scalable, reliable, and user-friendly solutions. Strong problem-solving abilities, effective communication skills, and a collaborative mindset. Dedicated to continuous learning and staying updated with emerging technologies to deliver quality results in dynamic.

Experience

Molave Youngs Milling Corp., Junior Software Developer

(June 2025 – December 2025)

- Developed and maintained full-stack applications using TypeScript, NestJS, Next.js, React.js, and Prisma ORM, ensuring scalability and performance.
- Built and integrated RESTful APIs with Swagger, improving system documentation and cross-team collaboration.
- Contributed to mobile app development with React Native, enhancing user accessibility and experience.
- Applied Agile methodologies with Sprint Planning and Jira, collaborating with cross-functional teams to deliver projects on time.
- Implemented state management with Redux, optimizing application performance and maintainability.

Camp Connection, Front-End Developer

(February 2025 – August 2025)

- Developed and maintained modern, responsive web applications using React, TailwindCSS, and JavaScript.
- Wrote scalable, reusable, and well-documented code, ensuring maintainability and collaboration.
- Integrated REST APIs to enhance application interactivity and real-time content delivery.

- Collaborated with designers and back-end developers to define requirements and implement robust features.
- Participated in agile development cycles, sprint planning, and task management.
- Resolved technical issues in production environments, ensuring reliability and smooth user experiences.
