Nicko Balboa

Pasig City, Philippines, 1609

+63 962 492 2544 **nickojek2x@gmail.com**

Motivated Web Developer with experience in building and maintaining modern web applications. Skilled in both front-end and back-end development, with a focus on creating scalable, reliable, and user-friendly solutions. Strong problem-solving abilities, effective communication skills, and a collaborative mindset. Dedicated to continuous learning and staying updated with emerging technologies to deliver quality results in dynamic.

Experience

Kooapps Philippines Corporation, Programmer

(November 2025 – February 2026)

- Learn and applied C++ fundamentals, including object-oriented programming (OOP), memory management, and problem solving techniques.
- Developed an iOS Card Game using Objective-C implementing game logic, scoring system, and interactive UI Components.
- Built a Set Card Game in iOS using Objective-C, implementing card-matching algorithms and rule validation logic.
- Applied MVC architecture in iOS development to separate game logic, UI and data models effectively.
- Implemented event handling, dynamic UI updates, and state management for a smooth user gameplay experience.

Molave Youngs Milling Corp., Junior Software Developer

(June 2025 – November 2025)

- Developed and maintained full-stack applications using TypeScript, NestJS, Next.js, React.js, and Prisma ORM, ensuring scalability and performance.
- Built and integrated RESTful APIs with Swagger, improving system documentation and cross-team collaboration.

- Contributed to mobile app development with React Native, enhancing user accessibility and experience.
- Applied Agile methodologies with Sprint Planning and Jira, collaborating with cross-functional teams to deliver projects on time.
- Implemented state management with Redux, optimizing application performance and maintainability.

Camp Connection, Front-End Developer

(February 2025 – August 2025)

- Developed and maintained modern, responsive web applications using React, TailwindCSS, and JavaScript.
- Wrote scalable, reusable, and well-documented code, ensuring maintainability and collaboration.
- Integrated REST APIs to enhance application interactivity and real-time content delivery.
- Collaborated with designers and back-end developers to define requirements and implement robust features.
- Participated in agile development cycles**,** sprint planning, and task management.
- Resolved technical issues in production environments**,** ensuring reliability and smooth user experiences.

Technical Skills

Programming Languages

JavaScript, TypeScript, PHP**,** C++, Objective-C

Frameworks & Libraries

Laravel, React.js, React Native,
NestJS, Node.js TailwindCSS, Bootstrap,
Redux.js, Prisma ORM, Swagger API

Databases

MySQL, PostgreSQL

Tools & Platforms

Git & GitHub, Visual Studio Code,
MySQL Workbench, XAMPP, XCode

Methodologies & Practices

Agile Development, Sprint Planning, Jira
